present conditions.

A. E. McKenzie, a prominent sportsman of Denver, was present and told the members some of the troubles the Colorado sportsmen were up against until they took just such action as the Utah muners and fishermen are doing now.

While a definite request to the legisman action as the Utah muners and decided upon last evennot decided upon last evenlature was not decided upon last even-ing. It is believed the committee will ask that money enough be appropriated to see that these laws are enforced. The sportsmen are willing to pay a license of one dollar a year and will probably by to get the legislature to make such a tax obligatory.

SNOWSLIDE AT PARK CITY. Caught the South End of Quincy Hoist, Carrying It Away-

Park City, Jan. 14.—The first slide of snow reported during this winter was a small one which occurred yesterday at the Quincy and as a result that portion of the Daly-West property is working through the west entirely. South of the Quincy hoist there is a large swall in the mountains and in the winter this fills with snow. Yesterday the comb formed by the snow got so heavy that it broke and came down and in its path was the south end of the Quincy hoist, which impediment was taken with the slide. At the time the slide came down there was but one man working at the mine on top and he was on the opposite end from where the damage was done, and was therefore uninjured.

Sitting around the stove in one of the leading Drug Stores the other evening was the usual crowd. Politics, religion and about everything else were discussed, when the discussion turned to modern vs. ancient methods of doctoring. One man said, they don't do things like our good old grandmothers did, and if you will sit down and figure out, you will find that more people die from pneumonia, and more people go into consumption today, with all their new fangled ideas, than in the days of our grandmothers. Brings in First Solution of Herald Addicks Men in Delaware Legislature Get Even for Treachery to the Gasman.

> Dover, Del., Jan. 14.-Henry Richardson of this county was tonight declared the Republican nominee for the United States senate on the ninth ballot in the caucus of the thirty-eight assemblymen of the lower branch of the Delaware legislature. The ballot resulted: Richardson, 20; Allee, 10; Burton, 1; Marshall, 1; Addicks, 1; Layton, 2; Pennewill, 1.

Layton, 2; Pennewill, I.

J. Frank Alee's supporters stood by him
to the last, but the gradual defection of
the Addicks men to Richardson made the
present senator's selection by the caucus
practically impossible. Tonight's action
by the Republican assemblymen virtually
assures Mr. Richardson's nomination as
senator as it had been agreed by the senator, as it had been agreed by the members, previous to the caucus, that they would support in tomorrow's joint whoever received 19 votes in to night's meeting.

Police Fail to Establish Case Against Actor.

Fred Leando, the actor accused of inducing young girls to leave home, was discharged from custody yesterday, the police failing to discover evidence sufficient to establish a case against him. James Walsh, who was arrested with Leando, also was discharged.

Leando has been subpoenaed to appear as a witness against Fern Cochran in the juvenile court today. She and Ettie Weaver were the two girls on whose information Leando was arrested. Both girls are accused of incorrigibility and if convicted will be sent to the state industrial school at Ogden. Fred Leando, the actor accused of in-

SYPHILIS, BLOOD POISON YOU ARE NEVER SAFE WHILE THIS POISON REMAINS IN THE

A person afflicted with Blood Poison cannot feel safe while any of the virus or poison remains in the system. This disease, with little doubt, is one of the most horrible and deadly which affects the human family, from the fact that though its beginning is manifested by only a small sore, in a short time it becomes constitutional; the blood is contaminated, the tissues break down, and a multitude of terrible symptoms follow, such as unsightly skin eruptions, sore throat, falling of the hair, pains in various parts of the body, inflamed eyes, general emaciation and debility. Later may follow disease of the nerves, such as paralysis, locomotor ataxia, softening of the brain, insanfity, etc. We will cure you if your case can be cured.

MEN WHO LACK VIGOR AND MENTAL CLEARNESS. There is a peculiar form of impotency to which men and all those whose brains are in constant action are subject to in a greater or less degree. It is sometimes referred to as brain-fag. The daily grind of balances, of collections, losses and business complications brings on a sort of apathy.

The cares of business are already sufficient to overburden the mind, but when the nerve force and vigor seem to have given out, a very dangerous complication is added to the mental condition.
